The Department of State Hospital's mission is to provide evaluation and treatment in a safe and responsible manner, and seek innovation and excellence in hospital operations, across a continuum of care and settings. You are a valued member of the Department's team. You are expected to work cooperatively with team members and others to enable the department to meet these goals and provide the highest level of service possible. Your efforts to treat others fairly with dignity and respect are important to everyone with whom you work.

**BRIEFLY DESCRIBE THE POSITION'S ORGANIZATIONAL SETTING AND MAJOR FUNCTIONS**

Under the direction of the Nurse Administrator (NA)/Assistant Coordinator of Nursing Services in a state hospital, the **Health Services Specialist Infection Preventionist (HSS-IP)** is responsible for the Skilled Nursing Facility activities aimed at preventing healthcare associated infections (HAI) by ensuring that sources of infections are isolated to limit the spread of infectious organism. The IP collaborates with the hospital Public Health Nurse (PHN) and the Infection Control Committee to ensure safe practices in the Skilled Nursing Facility. The IP conducts educational and training activities for healthcare personnel (HCP) through instruction and dissemination of evidence-based information on healthcare practices. The IP implements the SNF Infection Prevention & Control Program in collaboration and support of SNF management & staff, administration, physicians, housekeeping, dietary, Standards & Compliance and other departments. The HSS-IP is also responsible for the ongoing monitoring, assessing, and making recommendations for the maintenance of quality nursing services, with primary emphasis on the physical care needs of clients/patients in a program on an assigned shift; assures education and training in nursing care is provided to unit personnel; and performs other duties that may be assigned.
